OFFERINGS for SPRING!

A glance in our windows will convince the most exacting that we have not exaggerated in our claims when we say that for this season we are showing the snappiest, handsomest, up-to-date and largest variety of wearing apparel for men, young men and boys ever displayed in this city. Knowing that the populace of this community appreciate the niceties of dress, we have made selections—from custom tailoring to the smallest accessories—with critical and painstaking care. A visit on Saturday, our opening day, or at your convenience, will be appreciated. Drop in any time and see what we have, whether you propose buying or not. We'll make you welcome.

New School Building!

Owing to the fact of the School Board's having bought the old Perkhous (our warehouse) for the site for the new High School Building, we are obliged to move all our vehicles within the next 60 days; and we have figured that it would be better to sell them than to move, a storeroom in Maysville is pretty scarce just now, and besides it is very expensive to move four or five carloads of crated vehicles.

Therefore!

We are beginning today the most phenomenal sale of vehicles ever held in Maysville, and a word to the wise should be sufficient. "If you are contemplating the purchase of a rig of any kind, now is your opportunity."

MAGNOLIA EXPLOSION

Thirty-ninth Anniversary of a Marine Disaster that Carried Death and Sorrow Into Many Homes of this City

The explosion and burning of the Maysville and Cincinnati packet Magnolia, on Wednesday, March 18th, 1868, was probably the greatest and most horrible disaster ever occurring on the Ohio river.

Though thirty-nine years intervene, the day is one never to be forgotten by many still residents of this city and vicinity, who had relatives aboard the ill-fated steamer, and with each recurring anniversary hold the day in sacred and mournful reverence.

In speaking of the deplorable affair the Eagle of that date says:

"Wednesday afternoon the people of Maysville were greatly excited over a telegraphic dispatch that the Magnolia had been blown up and then burnt to the water's edge near California, a little town about twelve miles above Cincinnati. Succeeding telegrams corroborated the distressing intelligence, and every face indicated the general anxiety. It is known that nearly a hundred lives were lost, and that some of those who escaped death were badly injured. Among the dead we regret to say are several esteemed citizens of this place—Rev. F. W. Stone of the Baptist Church, Joseph Batty and J. K. McIlvain, of Mason county. Captain rather, Bill Evans and P. Miller, and two-thirds of the crew were lost. Elliott and Low Miller were saved. Express Messenger Clark, Bart deney, Jackson and William Burton were injured. Mr. James Jacobs, of Maysville, A. James Gault and his son, of Mason

county, were saved, but the former is badly hurt. The passengers were generally brought to Maysville by the New Richmond packet.

"Hon. Thomas A. Curran, of Dover, formerly proprietor and Editor of The Eagle, badly burned by a stove falling on him. [The present Editor and proprietor of THE LEDGER, Mr. A. F. Curran, is a son of the former.]

"Colonel Charles A. Marshall, of the county, in narrating the deplorable accident said he had just finished dinner and was conversing with James Gault on the guards when the explosion occurred. He has no recollection until he found himself in the water in the midst of the debris of the wreck, some distance below the boat. From this he thinks he had been blown a considerable distance into the air and more than the entire length of the boat. He could not swim and commenced sinking immediately after returning consciousness. He sank in very deep water, and when he rose found himself under the upper deck of the boat, but supposing it was the hull gave himself up for lost and resigned himself to his fate. Fortunately, he made another effort for life, and reaching out grasped a spar which was resting on a mass of mattresses and by its aid pulled himself to the water's surface. He then floated along on the bedding and spar until rescued.

"One of the unhappy victims clung to the ropes hanging from the stern of the boat until the hair was burned entirely from his head. An effort was made to rescue him but the skiff caught on fire and the attempt was abandoned. The poor wretch, thus left to his fate, perished in the flames clinging to the wreck to the last.

"Rev. F. W. Stone shortly after being blown into the water was seen clinging to a bundle of shingles, his face bleeding profusely, and praying. He seemed much excited and confused from his severe wound and pain, and losing his

is not a great age, it is much greater

than many of the men who
have occupied the White
House. In fact, only 10
of the 22 men who pre-
ceded Mr. CLEVELAND
lived as long as he has
lived. Of the 25 men

who have served as President, 8 of the first 12
lived to be 70 years of age or older, while the
13 who followed in the office of Chief Execu-
tive of the Nation there were but 4 who lived
to the age of 70—Presidents FILLMORE, BU-
CHANAN, HAYES and CLEVELAND. JOHN AD-
AMS was 90 years old, MADISON 85, JEFFERSON
83, JOHN QUINCY ADAMS 80, VAN BUREN 79
and JACKSON 78.

Mr. CLEVELAND is receiving thousands of
congratulatory letters and telegrams today fel-
icitating him upon his three-score-and-ten an-
niversary.

He is a typical American citizen whom all
parties should delight to honor. Besides, his
wife is one of the most beautiful and admirable

THE TIMES AND MEN BOTH CHANGE.
Richmond (Va.) News-Leader.

"Mr. CLEVELAND was elected twice President as a
Democrat, but when his party became too violent and its
policies menaced the welfare of the country he tore away
from his party and went far in the direction of Republi-
can policies. He was right, and his courage and inde-
pendence averted disaster."

Louisville Post.

"Ten years ago a Democratic newspaper in the South
which would have dared to make such a statement rela-
tive to Mr. CLEVELAND (as the above) would have been
blacklisted by all Democratic voters. Now the great ser-
vices of Mr. CLEVELAND not only to the country but to
the Democratic party and to the South are being recog-
nized. Mr. CLEVELAND will never again be a candidate
for office, but he remains the foremost citizen in private
life in the United States."

HONEST ABE'S WAY.

A pair of busy-bodies once called at the White House
to ask Lincoln to remove Grant from the position of
Commander-in-Chief of the Union Army.

When other arguments failed they finally announced
that he drank a great deal and ought to be removed on
that account.

"By the way, gentlemen, can either of you tell me
where General Grant procures his whisky? If I can find
out I will send every General in the field a barrel of it."

Gardening Folly. ♢ ♢

It is certainly folly to plant
seeds of unknown origin simply
because price is low. So much
depends upon the seeds you plant
that price should not be consid-
ered. Sure seeds are cheap at
any price, and

LANDRETH'S SEEDS

Are sure. What is more, they
can be bought as cheaply as any
other reliable seeds.

We are sole agents for Mays-
ville for Landreth's Seeds and
carry a complete stock of the sorts
adapted to this locality. Every
seed is from a vigorous, healthy
plant grown last year. That in-
sures healthy plants this year.
We can sell you Garden and
Flower Seeds in packages or any
quantity you wish in bulk.

Sending away for uncertain,
possibly old and sterile seeds is
folly.

Editor Public Ledger: Concerning an article
published in your paper March 12th,
signed Contractors, I wish to dismiss allusions
made to myself therein by briefly stating facts.

The contract was made by the city of Mays-
ville, not by the county.

The county donated \$400 to the city to be
used on Forest avenue. Subsequent to letting
of contract those in charge appealed to Turn-
pike Committee and Superintendent for the
use of machinery owned by the county. The
consent was obtained only on stipulated grounds:
That if conditions arose by which said ma-
chinery could be furnished without interfering
with work on the roads in the county, the Su-
pervisor would, for a reasonable compensation,
use roller and grader on Forest avenue to such
an extent as circumstances and opportunities
would permit. We shaped and rolled the grade
before the crusher was set. We then set the
crusher for them.

The whole thing in a nutshell is, they got an-
other contract and used the county crusher for
crushing rock to make concrete for the Ameri-

can Tobacco Warehouse instead of using it for
the purpose for which it was procured.

Contractor also states that the road has
been ready to roll since December 1st. Since
that time there have not been enough good
days together for us to get the machine in here
and do the work in a satisfactory manner.

If the energy, time and money had been
given to the first contract that was given
to the second, and crusher used for that alone,
they would not be trying to shift the responsi-
bility on to some one else, who is in no way to
blame for the road not being finished.

As soon as the City Council says the contract
has been complied with except the rolling,
weather permitting, we are ready to apply the
roller.

Heretofore we have been a firm advocate of
President Roosevelt for the third term, and in
fact for as many terms as he could be induced
to accept the Presidency, but now we are for
the other man. The President certainly knew
that Mr. Blackburn was one of the ring-leaders
of Goebellism, and he knows what that rotten

Yet hundreds of deserving Republicans who
have borne the burden and strife of many po-

worshipped, bestow the plum upon their political
enemy, who, at last, was repudiated by his own
party. If the President's marvelous popularity

Deafness Cannot be Cured
by local applications, as they cannot reach the dis-

cure deafness and that is by constitutional reme-
dies. Deafness is caused by an inflamed condi-
tion of the mucous lining of the Eustachian tube.
When this tube is inflamed you have a rumbling
sound or imperfect hearing, and when it is entirely
closed, deafness is the result, and unless the in-
flammation can be taken out and this tube re-
stored to its normal condition, hearing will be
destroyed forever; nine cases out of ten are caused
by Catarrh, which is nothing but an inflamed
condition of the mucous surfaces.
